

Khushi Yadav

ASPIRING AI ENGINEER · INTERNSHIP CANDIDATE

khushiyadav250307@gmail.com | linkedin.com/in/khushi-yadav-43ab45411 | github.com/khushiyadav222

CAREER OBJECTIVE

Second-year BCA student at Dr. A.P.J. Abdul Kalam Technical University (AKTU), building a strong foundation in programming, data structures, and data science. Currently learning Python, Machine Learning, and AI fundamentals through hands-on projects in data analysis, predictive modelling, and natural language processing. Looking for an internship where I can contribute to real AI and software work, learn from experienced engineers, and grow into a professional AI Engineer.

EDUCATION

Bachelor of Computer Applications (BCA) Ongoing

Dr. A.P.J. Abdul Kalam Technical University (AKTU) · Second year

TECHNICAL SKILLS

Programming & Core CS: C, Python, Data Structures

Data Analysis: NumPy, Pandas, Matplotlib, Data Visualisation

AI & Machine Learning: Machine Learning, Scikit-learn, NLP, NLTK

Databases: SQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Streamlit

PROJECTS

Interactive Data Analysis In progress

Tech: Python, Pandas, Matplotlib, Jupyter Notebook

- Built interactive data analysis in Python/Pandas; visualised insights with Matplotlib.

Predictive Model Playground In progress

Tech: Python, Scikit-learn, Pandas

- Classification/regression experiments; training and evaluation with Scikit-learn.

NLP Text Analyzer In progress

Tech: Python, NLP, NLTK, Pandas

- Tools to analyse and summarise text; cleaning and structuring raw text.

AI Learning App In progress

Tech: Python, Streamlit, Machine Learning

- AI-powered learning app turning ML concepts into an interactive tool.

Python Automation Scripts Experiment

Tech: Python

- Scripts automating repetitive tasks; practical problem-solving.

SELF-DIRECTED LEARNING

AI & ML Exploration Ongoing

Python, data handling, ML concepts, AI app development.

Project-Based Learning Ongoing

Building projects to strengthen development skills.
